

Covenant of Support

President Obama,

As a Bible-believing, patriotic citizen, I urge you today to stand up in defense of Israel against the plan to wrest Jerusalem, the ancient Holy City that is the rightful and eternal capital of Israel, from the Jewish people to give it to their sworn enemies, the Palestinians. There is no way that our nation can escape the judgment and curse of God if we curse the Chosen People in this manner.

The United States has no better friend or ally in the world than Israel, and it would be a tragedy for us to turn our backs on it now. The enemies of Israel and America cannot be appeased by concessions—history has taught this lesson over and over again. Giving Jerusalem to the Palestinians will not bring peace to the Middle East; instead, it will bring a curse on every nation that supports this direct attack on God's prophetic plan.

I am asking you today to order our delegation to the United Nations to oppose any attempt to divide Jerusalem or to unilaterally declare a Palestinian state without regard for Israel's safety and security. I am praying that God will give you wisdom and strength for all the challenges of the office to which He has brought you.

I sign this Covenant of Support with a prayer for God's blessings, protection and guidance on both Israel and America.
